Size: 110x105x25mm

Our MINIVX Satellite receiver allows any TV or screen with a HDMI input to receive Free TV channels anywhere in New Zealand once you connect to a aligned Satellite dish.

The receiver is pre loaded with all the available Freeview TV channels and will allow you to watch Sky TV with a valid Sky subscription, you can leave your Sky box at home.

The MINIVX has extremely low power consumption and is easy to use with a remote control and remote IR receiver bug.

*Add the MINIVX to Samsung Smart panels to give you the full TV experience.
